

**Absolute Green Energy Corporation launches its Value Added Distribution Services to helping Plumbers, Electricians and Contractors into Solar Energy work.**

Worcester, MA, USA, July 2010 – Absolute Green Energy Corporation is pleased to announce the launch of its Value Added Services for Plumbers, Electricians and Contractors to have their own share of Solar work. The company provides a range of products and services to reduce energy costs for industrial, commercial and residential clients.

These value added services will kick off with **Three Seminars focused on helping Plumbers, Electricians, and Contractors break into the Solar Installation Market**. The dates are: **20<sup>th</sup> for Plumbers, 27<sup>th</sup> for Electricians, and 29<sup>th</sup> of July 2010 for Contractors**. Topics to cover will be a General Overview of PV Systems, Components used in PV System Installations, Site Assessment for Installation, System Design, and an Over view of the Installation.

Other important facts to discuss in these Seminars will be Cost Justification or Cost/Benefit Analysis, Rebates and Incentives, and how to get Jobs!
